Directorate-General for Research & Innovation

Associated Countries

Association to Horizon 2020 is governed by Article 7 of the Horizon 2020 Regulation. Legal entities from Associated Countries can participate under the same conditions as legal entities from the Member States. Association to Horizon 2020 takes place through the conclusion of an International Agreement.

As of 29 April 2016, the following countries are Associated to Horizon 2020:

- **Iceland**
- **Norway**
- **Albania**
- **Bosnia and Herzegovina**
- **the former Yugoslav Republic of Macedonia**
- **Montenegro**
- **Serbia**
- **Turkey**
- **Israel**
- **Moldova**
- **Switzerland (*partial association, see below*)**
- **Faroe Islands**
- **Ukraine**
- **Tunisia**
- **Georgia**

Association Agreements with all of the above countries have either entered into force or are provisionally applicable; all Agreements apply retroactively from 1 January 2014 (i.e. from the beginning of Horizon 2020) except for the Agreement with Switzerland, which is retroactively applicable as of 15 September 2014, the Agreement with Ukraine which is applicable as from 17 August 2015 and the Agreements with Tunisia and Georgia which are applicable as from 1 January 2016.

An international agreement associating **Switzerland** to parts of Horizon 2020 was signed on 5 December 2014. The parts to which Switzerland is associated are: the "Excellent Science" pillar, containing the European Research Council, Future and Emerging Technologies, Research Infrastructures and the Marie Skłodowska-Curie actions; the actions under the specific objective "Spreading excellence and widening participation"; and finally the Euratom Programme and the activities carried out by the European Joint Undertaking for ITER and the Development of Fusion for Energy for 2014-2020. The participation of Switzerland to these parts of Horizon 2020 and to Euratom Programme and to ITER as an Associated Country applies provisionally from 15 September 2014 and is expected to last until 31 December 2016 (this would be then followed by either full association or no association, i.e. third country status). Swiss entities may participate with a status of third country entities in other Horizon 2020 priorities that are not listed above. For more information, please see the information note on http://ec.europa.eu/research/participants/data/ref/h2020/other/hi/h2020-hi-swiss-part_en.pdf

Given that the EU does not recognise the illegal annexation of Autonomous Republic of Crimea and the City of Sevastopol, under the terms of the Horizon 2020 Association Agreement with **Ukraine**, legal persons established in the Autonomous Republic of Crimea or the city of Sevastopol are not eligible to participate. Should the illegal annexation of the Autonomous Republic of Crimea and the City of Sevastopol end, the Agreement will be revised accordingly.

The signature of an Association Agreement with **Armenia** is expected in the first semester of 2016. It would only enter into force once Armenia notifies the Commission that its internal procedures have been completed (no provisional or retroactive application is foreseen). Armenian legal entities will be able to participate in all Horizon 2020 actions funded from the 2016 budget (calls for proposals, calls for tenders, contests, JRC activities etc.) with the status of entities from an Associated Country as of the entry into force of the Association Agreement.

Note that, unlike in FP7, **Liechtenstein** does not intend to associate to Horizon 2020.
